

Declaration on the Rights of Peasants

Towards the adoption of the Peasants' Rights Declaration in New York (UN)

lundi 15 octobre 2018

Victory !

After more than 5 years of negotiations, a great majority of States adopted the Declaration in September at the United Nations Human Rights Council

Next step : New York

The Declaration will now go through the UN General Assembly Third Committee in October, before going to the General Assembly for a final vote in December.

Let's mobilise !

The next step for citizens worldwide is to pressure our governments and for States to vote for the Declaration's ultimate adoption.
